PROFILE

I specialize in conducting comprehensive safety analyses for various types of nuclear power plants using advanced system and computational fluid dynamics codes. My experience encompasses successfully developing, leading, and completing international projects through effective collaboration with global teams.

PROFESSIONAL EXPERIENCE

FNC Technology Co., Ltd.

Manager
2023 – present | South Korea
Associate Manager
2019 – 2023 | South Korea
Assistant Manager
2016 – 2019 | South Korea

Bil-Plas Industry and Trade Co., Ltd., R&D Engineer
2013 – 2014 | Ankara, Turkey

EDUCATION

Nuclear Engineering, Ph.D., Seoul National University
2024 | Seoul, South Korea

Nuclear Power Plant Engineering, M.Sc., KINGS
2016 | Ulsan, South Korea

Nuclear Energy Engineering, B.Sc., Hacettepe University
2013 | Ankara, Türkiye

LATEST PROJECTS

[SMR] Small and Micro Modular Reactors Technology Analyses
Project Development and Management (APM)

[MSR] Development and Analysis of Fuel Salt Leakage Behavior in Discharge System Shell
Project Development and Management (APM)

[SMART] System-Integrated Modular Advanced Reactor Passive Containment Cooling System

[PGSFR] Prototype Gen-IV Sodium-Cooled Fast Reactor Analysis

[EUR] APR1000 PAFS Standard Design Development and EUR Certification Support

AWARDS & CERTIFICATES

International Atomic Energy Agency Fellowship, IAEA
Modeling and Computation of Multiphase Flows, ETH
International Marketing, Business and Intelligence, ATO
Full Academic Scholarship, KINGS

PERSONAL VENTURES

Nuclear Industry Association of Turkey, Board of Directors
Turkish Chamber of Commerce in Korea, Co-Founder
Hacettepe Rugby Club, Founder
